How to bust myths about community cats with science

How to bust myths about community cats with science

October 7, 2015 - Blog Categories: *Community Cats*

(<http://chewonthis.maddiesfund.org/category/community-cats/>), *Uncategorized*

(<http://chewonthis.maddiesfund.org/category/uncategorized/>), *Using Data and Statistics*

(<http://chewonthis.maddiesfund.org/category/data/>), *Webcasts*

(<http://chewonthis.maddiesfund.org/category/webcasts/>)

Ever feel incredibly frustrated at the picture anti-cat advocates are trying to paint of cats? So is Peter Wolf, and he's dedicated his life to doing something about it.

He first created a blog called *Vox Felina*, where he methodically deconstructs misleading media narratives and bad science. He's now added the position of Cat Initiatives Analyst for Best Friends Animal Society to his job description, and helps provide a foundation for an evidence-based perspective on cats, wildlife and public policy. (He's also earned the nickname "Feral Nerd Guy.")

Wolf will tackle ongoing media and scientific controversies at a free Maddie's Institute® webcast, *How to Bust Myths about Community Cats with Science*, on Thursday, October 22, at 9 PM Eastern Time.

Get more information and register here (<http://www.maddiesfund.org/how-to-bust-myths-about-community-cats.htm>). And spread the word to other cat advocates!
